Your leadership on clean energy and conservation issues has led to a 103% lifetime score on our conservation scorecard! You have been a strong and consistent voice for protecting the air, land, and water of South Carolina and we appreciate your strong record and leadership on clean energy and other common-sense conservation topics. Add this to your support for land protection and the Conservation Bank, wildlife protections, electric vehicle charging growth, and clean drinking water, and it is clear that your voice has had a big impact in the SC House.

You have been a strong ally in protecting South Carolina's natural resources, and we cannot thank you enough. That is why we want to see you return to Columbia to continue your leadership on these important issues.
