I am pleased to inform you that Conservation Voters of South Carolina (CVSC) has endorsed your election to the South Carolina House of Representatives from District 52 because of your support of “common sense conservation” and resolve to protect our quality of life in South Carolina.

We especially appreciate your passion for public service and giving back to the community – key traits of an effective lawmaker. With a strong background in conservation – from farming, to advocating for conservation easements, to installing solar and battery storage on your home – your experiences will make you a strong and passionate advocate for common-sense conservation. You have seen firsthand and are hearing about the changes that rampant growth and sprawl can bring to rural communities throughout our state, and we are excited to work with you to find pragmatic solutions that increase prosperity but also while protecting the natural resources that make our communities unique. We value that you recognize that conservation is conservative and your passion for finding pragmatic solutions through collaboration and compromise.

A key part of our mission is to let South Carolina voters know where elected officials and candidates stand on protecting our air, land and water and on creating a sustainable energy future. We appreciate your recognition that investing in South Carolina’s natural resources is critical for our state’s economy.

When the General Assembly convenes for the January 2023 session, citizens of South Carolina will be depending on you to protect the air, land, and water that we all love. We value your willingness to work with us and consider our positions when making decisions on important conservation issues before the House.

You may use our endorsement in your campaign materials as well as on your website and social media pages. Working together, we can provide a clean and healthy South Carolina for future generations.

Sincerely,

A handwritten signature in blue ink, appearing to read "John Tynan".

John Tynan
