You have been a consistent supporter of conservation issues, working to ensure all citizens enjoy a clean and healthy environment. You've supported the rights of homeowners to install clean energy through the introduction of the solar HOA bill with broad bipartisan support. You've also fought tirelessly to ensure that citizens of South Carolina are not forced to drink water contaminated with toxic chemicals. You've supported wildlife protections and common sense investments in land protection. For this and more, we want to see you return to Columbia to continue your leadership and work on these important issues.

When the General Assembly convenes for the January 2023 session, citizens of South Carolina will be depending on you to protect the air, land, and water that we all love. We value your willingness to work with us and consider our positions when making decisions on important conservation issues before the House.
