116 Calvary St
Greer, SC 29650

Dear Alan:

I am pleased to inform you that Conservation Voters of South Carolina (CVSC) has endorsed your election to the South Carolina House of Representatives from District 18 because of your support of “common sense conservation” and resolve to protect our quality of life in South Carolina.

We especially appreciate your passion for public service and giving back to the community – key traits of an effective lawmaker. We value your recognition that conservation is conservative and that the market can – and will – help to advance pragmatic solutions to protect the natural resources of our state. With the pressures of rampant growth in your district and your recognition that this is both an infrastructure and environmental issue, we look forward to working with you to find thoughtful solutions to both challenges.

A key part of our mission is to let South Carolina voters know where elected officials and candidates stand on protecting our air, land and water and on creating a sustainable energy future. We appreciate your recognition that investing in South Carolina’s natural resources is critical for our state’s economy.

When the General Assembly convenes for the January 2023 session, citizens of South Carolina will be depending on you to protect the air, land, and water that we all love. We value your willingness to work with us and consider our positions when making decisions on important conservation issues before the House.

You may use our endorsement in your campaign materials as well as on your website and social media pages. Working together, we can provide a clean and healthy South Carolina for future generations.

Sincerely,

A handwritten signature in blue ink, appearing to read "J. Tynan", is written on a white background.
